

Precision Technic Defence (SWE) Signs as Obsidian™ Representative for Sweden

Obsidian, the Limited Signature IR Light, is gaining traction globally and in order to secure prompt, sufficient and expert presence in all countries of interest, Telva is expanding its network of partners in sales. As a welcome step in this international growth, Precision Technic Defence of Sweden has signed on as a distributor. Adding Sweden to the countries represented by dedicated professionals taps into the very basics of our strategic goal, to serve our closest allies and become stronger together.

As of September 2026, Precision Technic Defence AB ("PTD SWE") is the sole representative for the Obsidian Limited Signature IR Light in Sweden. According to Telva Managing Director, Mr Timo Peltola: *"We are thrilled to welcome PTD SWE to the Obsidian family. Sweden, a recent new member of NATO, together with Finland, is in an intense phase of defence development and procurement, which makes it perhaps the best possible time to approach the Swedish Armed Forces with unique, competitive and enabling capabilities, such as the Obsidian IR light."*

PTD SWE is built on three core values: Quality, Knowledge and Credibility, all of which are critical ingredients in what makes relationships work in the defence world: trust. In the words of PTD SWE Country Manager Jan Petersson: *"The Precision Technic Defence Group is much more than just a product provider. We serve as a trusted and loyal advisor to our customers, by mastering critical business components to guarantee a higher level of operational efficiency. PTD is proud to possess a deep understanding of the concrete challenges our customers face, and to be able to deliver credible and high-quality solutions to close the gap between operational require-ments and industry capabilities."*

PRECISION TECHNIC DEFENCE

PTD SWE and Telva have entered into a partnership to promote Telva's Obsidian Limited Signature IR Light in Sweden.

Concerning business development for Obsidian in Sweden, PTD SWE has hit the ground running, with a number of field demonstrations already lined up. Being a seeing-is-believing product, this is the right and only way forward for Obsidian.

About Precision Technic Defence

Precision Technic Defence Group is a global leader in advanced defence solutions aimed at ensuring safe and stable societies and safeguarding people and communities from military threats, natural disasters, accidents and acts of terrorism. Originally founded in Denmark, it is present today in Europe, North America and Australasia.
